

1. The Forecast is based on the WRF model run made at TSDPS for 2 days using NCEP global model dataset as input.
2. Mandal forecast provided is by converting gridded output of the model averaged to Mandal boundary and not the point Weather forecasted at Mandal headquarter.
3. The forecast may be taken as guidance / outlook for weather conditions for next two days only.
4. TSDPS doesn't take the responsibility for any misinterpretation whatsoever drawn out of the forecast.
5. For detailed model forecast performance statistics TSDPS may be contracted at **'info.tsdp@gmail.com'**
